Public Notice No.

P-2427

Public Notice Date

July 19, 2004

Expiration Date

August 10, 2004

**Postmaster Please Post Conspicuously Until:**

---

File Number: 200404650

Interested parties are hereby notified that an application has been received for a Department of the Army permit for certain work in waters of the United States, as described below and shown on the attached map.

**COMMENTS AND ADDITIONAL INFORMATION:** Comments on the described work should reference the U.S. Army Corps of Engineers File Number shown above and must reach this office no later than the above expiration date of the Public Notice to become part of the record and be considered in the decision. Comments should be mailed to the following address:

U.S. Army Corps of Engineers  
ATTN: CEMVS-CO-F (Linda Campbell)  
1222 Spruce Street  
St. Louis, Missouri 63103-2833

**APPLICANT:** Duck Club Condominium Association, Inc., c/o: Mr. Pete Tully, Commodore, 1618 Strecker Woods Ct., Ballwin, Missouri 63011. (636) 250-3007

**LOCATION:** Maintenance dredging activities would take place within the Duck harbor, located at 6257 Highway V, in the Northeast ¼ of Section 8, Township 48 North, Range 5 East, near the right descending bank of the Mississippi River, approximately 221 miles above the Ohio River confluence, near Portage Des Sioux, St. Charles County, Missouri. (See Attached Location Map).

**PROJECT DESCRIPTION:** The applicant proposes to contract the services of a hydraulic dredge vessel to remove approximately 40,000 to 50,000 cubic yards of accumulated sediments from the Duck Club Harbor, which equates to a depth removal of up to approximately 2 to 3 feet. The dredged materials would be directed into the Mississippi River to its proposed open water disposal site, approximately 300 to 600 yards downstream of the harbor's mouth, on the riverward side of Perry Island. The dredge material would be placed just outside of the designated navigation channel of the Mississippi River, in waters located in the State of Missouri. This action was previously permitted under permit number P-2006 on August 30, 1996. (See Attached Drawings)

**ADDITIONAL INFORMATION:** Additional information may be obtained by contacting Linda Campbell, Rivers Project Manager, U.S. Army Corps of Engineers at (314) 331-8632 or at electronic mail address: *Linda.Campbell@mvs02.usace.army.mil*

**AUTHORITY:** This permit will be processed under the provisions of Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403) and Section 404 of the Clean Water Act (33 U.S.C. 1344).

**WATER QUALITY CERTIFICATION:** The project plans have been submitted to the Missouri Department of Natural Resources, Water Pollution Control for state certifications of the proposed activity in accordance with Section 401 of the Clean Water Act. Written comments concerning possible impacts to waters of Missouri should be addressed to: Water Pollution Control Program, P.O. Box 176, Jefferson City, Missouri 65102-0176, with copy provided to the Corps of Engineers. The certifications, if issued, will express the Agencies opinion that the proposed activity will not violate each state's applicable water quality standards.

**SECTION 404 (b)(1) EVALUATION:** The impact of the activity on the public interest will be evaluated in accordance with the Environmental Protection Agency guidelines pursuant to Section 404 (b)(1) of the Clean Water Act.

**PUBLIC HEARING:** Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding the public hearing.

**ENDANGERED SPECIES:** The proposed project is within the range of the endangered Indiana bat (**Myotis sodalis**), Gray bat (**Myotis grisescens**), and the threatened Bald eagle (**Haliaeetus leucocephalus**). In order to complete our evaluation, written comments are hereby solicited from the U.S. Fish and Wildlife Service and other interested agencies to ascertain any potential impacts upon a listed species or their critical habitat.

**CULTURAL RESOURCES:** The St. Louis District will evaluate information provided by the State Historic Preservation Officer and the public in response to this public notice and we may conduct, or require a reconnaissance survey of the project area.

**EVALUATION:** The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the described activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit that may reasonably be expected to accrue from the described activity must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the described activity will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion, and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, consideration of property ownership and, in general, the needs and welfare of the people.

The U.S. Army Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of these

proposed activities. Any comments received will be considered by the U.S. Army Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

DANNY D. MCCLENDON  
Chief, Regulatory Branch
